Audit Content:

(1) A SMETA audit was conducted which included some or all of Labour Standards, Health & Safety, Environment and Business Ethics. The SMETA Best Practice Version 6.1 was applied. The scope of workers included all types at the site e.g. direct employees, agency workers, workers employed by service providers and workers provided by other contractors. Any deviations from the SMETA Methodology are stated (with reasons for deviation) in the SMETA Declaration.

(2) The audit scope was against the following reference documents

2-Pillar SMETA Audit

- ETI Base Code
- SMETA Additions
 - Universal rights covering UNGP
 - Management systems and code implementation,
 - Responsible Recruitment
 - Entitlement to Work & Immigration,
 - Sub-Contracting and Home working,

4-Pillar SMETA

- 2-Pillar requirements plus
- Additional Pillar assessment of Environment
- Additional Pillar assessment of Business Ethics
- The Customer's Supplier Code (Appendix 1)

(3) Where appropriate non-compliances were raised against the ETI code / SMETA Additions & local law and recorded as non-compliances on both the audit report, CAPR and on Sedex.

(4) Any Non-Compliance against customer code shall not be uploaded to Sedex. However, in the CAPR these 'Variances in compliance between ETI code / SMETA Additions/ local law and customer code' shall be noted in the observations section of the CAPR.

SMETA Declaration

I declare that the audit underpinning the following report was conducted in accordance with SMETA Best Practice Guidance and SMETA Measurement Criteria.

- (1) Where appropriate non-compliances were raised against the ETI code / SMETA Additions & local law and recorded as non-compliances on both the audit report, CAPR and on Sedex.
- (2) Any Non-Compliance against customer code alone shall not be uploaded to Sedex. However, in the CAPR these 'Variances in compliance between ETI code / SMETA Additions/ local law and customer code' shall be noted in the observations section of the CAPR.

Any exceptions to this must be recorded here (e.g. different sample size): This audit includes elements beyond the scope of a Social Compliance Audit as defined by the APSCA Competency Framework. The association of the auditor's APSCA number with this report is limited to those elements outlined in the APSCA Competency Framework. APSCA makes no representations with respect to the auditor's competency to professionally evaluate compliance with any other audit elements

Auditor Team (s) (please list all including all interviewers):

Lead auditor: Marilena Grasso	APSCA number: 21702352
Lead auditor APSCA status: RA	
Team auditor: Nil	APSCA number: N/A
Interviewers: Marilena Grasso	APSCA number: 21702352

Report writer: Marilena Grasso

Report reviewer: Mary Liu

Date of declaration: 11 November 2022

Note: The focus of this ethical audit is on the ETI Base Code and local law. The additional elements will not be audited in such depth or scope, but the audit process will still highlight any specific issues.

This report provides a summary of the findings and other applicable information found/gathered during the social audit conducted on the above date only and does not officially confirm or certify compliance with any legal regulations or industry standards. The social audit process requires that information be gathered and considered from records review, worker interviews, management interviews and visual observation. More information is gathered during the social audit process than is provided here. The audit process is a sampling exercise only and does not guarantee that the audited site prior, during or post-audit, are in full compliance with the Code being audited against. The provisions of this Code constitute minimum and not maximum standards and this Code should not be used to prevent companies from exceeding these standards. Companies applying this Code are expected to comply with national and other applicable laws and where the provisions of law and this Code address the same subject, to apply that provision which affords the greater protection. The ownership of this report remains with the party who has paid for the audit. Release permission must be provided by the owner prior to release to any third parties.

General observations and summary of the site:

The company was built in 1976 since 2009 in this site. The land area is around 3.000 square meters, the covered area is instead 1.644 square meters. The production area is 1.021 square meters, 623 square meters are occupied by offices. Conformity to standard released by the Town Hall in August 2009. Fire Prevention Certificate released by the Fire Brigade.

The electrical plant was in good condition and regularly maintained. All switches in the electrical control panels were suitably labelled. There are a fire alarm and an emergency lighting plant, both regularly checked. The factory entrusted Labour Doctor can visit the workers following his health surveillance protocol based on risk assessment document. In the facility there is enough toilets segregated per gender. There is no canteen. A suitable number of fire escapes are available for each premise. Sufficient fire equipment is provided through the various premises and external perimeters. The firefighting equipment is marked, accessible, operable, and half yearly checked by specialized firm, as well as the fire detection system (smoke detectors).

There are trained First Aid teams and Emergency & Fire Fighting teams, covering each department. Injuries are recorded as per law. The risk assessment document with particular risk analysis is updated, the H&S matter appeared well managed as well as residual risks. Suitable PPE, depending on position, is provided to, and worn by employees, without cost.

Employees are compensated by monthly salary and paid by direct bank deposit. All employees receive wages meeting the minima wages established by the National Collective Labour Contract for Textile Industry. Working hours are recorded by a swipe card system. The payroll journal was provided for a full payroll review, as well as contracts, personnel files, and all other required documentation. Every worker signed a regular contract based on the CCNL Industria Tessile (National Collective Labour Contract for Textile Industry). All the 10 interviewed workers declared to be satisfied to work for the company and to be treated fairly.

There are no union representatives, but some worker joined a union.

**Please note the table above records the total number of Non-compliances (NC), Observations (Obs) and Good Examples (GE). This gives the reviewer an indication of problem areas but does not detail severities of each issue – Reviewers need to check audit results by clause.*

1.1 There is no forced, bonded or involuntary prison labour.

1.2 Workers are not required to lodge "deposits" or their identity papers with their employer and are free to leave their employer after reasonable notice.

Current Systems and Evidence Examined

To complete 'current systems' Auditors examine policies and written procedures in conjunction with relevant managers, to understand, and record what controls and processes are currently in place e.g. record what policies are in place, what relevant procedures are carried out, who is/are responsible for the management of this item of the code. Evidence checked should detail any documentary or verbal evidence shown to support the systems.

Current systems:

Forced, bonded or involuntary prison labour forbidden by law. Through the employees' interviews and document review it was noted that employees are working voluntarily. All labour contracts are signed by both parties and maintained on their files. Workers can leave the company after a prior notice, as stated by the National Labour Contract, on role and seniority bases (from a minimum of 15 days). There is no evidence of deposits. Just copies of papers are kept on file by the facility. All the work force was hired on the base of the CCNL Industria Tessile (National Collective Labour Contract Textile Industry). The National Workers' Statute Law 300/1970 is respected.

6: Working Hours are not Excessive

[\(Click here to return to summary of findings\)](#)

[\(Click here to return to Key Information\)](#)

ETI

6.1 Working hours must comply with national laws, collective agreements, and the provisions of 6.2 to 6.6 below, whichever affords the greater protection for workers. Sub-clauses 6.2 to 6.6 are based on international labour standards.

6.2 Working hours, excluding overtime, shall be defined by contract, and shall not exceed 48 hours per week.

6.3 All overtime shall be voluntary. Overtime shall be used responsibly, taking into account all the following: the extent, frequency and hours worked by individual workers and the workforce as a whole. It shall not be used to replace regular employment. Overtime shall always be compensated at a premium rate, which is recommended to be not less than 125% of the regular rate of pay.

6.4 The total hours worked in any 7-day period shall not exceed 60 hours, except where covered by clause 6.5 below.

6.5 Working hours may exceed 60 hours in any 7-day period only in exceptional circumstances where **all** of the following are met:

- this is allowed by national law;
- this is allowed by a collective agreement freely negotiated with a workers' organisation representing a significant portion of the workforce;
- appropriate safeguards are taken to protect the workers' health and safety; and
- The employer can demonstrate that exceptional circumstances apply such as unexpected production peaks, accidents or emergencies.

6.6 Workers shall be provided with at least one day off in every 7-day period or, where allowed by national law, 2 days off in every 14-day period.

Current Systems and Evidence Examined

To complete 'current systems' Auditors examine policies and written procedures in conjunction with relevant managers, to understand, and record what controls and processes are currently in place e.g. record what policies are in place, what relevant procedures are carried out, who is/are responsible for the management of this item of the code. Evidence checked should detail any documentary or verbal evidence shown to support the systems.

Current systems:

Working hour limits are regulated by the CCNL Industria Tessile (National Collective Labour Contract Textile Industry). Working hours are recorded by timecard system. Data were provided for review. Interviewed workers, as well as management, confirmed that OTs are not worked. The working hour is developed on 1 shift from 8:00 to 17:30 Monday to Friday with 1 hour and 30 minutes of break time

8: Regular Employment Is Provided

[\(Click here to return to summary of findings\)](#)

[\(Click here to return to Key Information\)](#)

ETI

8.1 To every extent possible work performed must be on the basis of recognised employment relationship established through national law and practice.

8.2 Obligations to employees under labour or social security laws and regulations arising from the regular employment relationship shall not be avoided through the use of labour-only contracting, sub-contracting, or home-working arrangements, or through apprenticeship schemes where there is no real intent to impart skills or provide regular employment, nor shall any such obligations be avoided through the excessive use of fixed-term contracts of employment.

Additional Elements: Responsible Recruitment

8.3 Suppliers have full understanding of the entire recruitment process and assess all labour recruiters and intermediaries against legal and/or ethical requirements.

8.4 There are effective management systems in place to identify and monitor the hiring and management of all migrant workers, contract workers, agency workers, temporary or casual labour. The supplier shall implement processes to enable adequate control over agencies with regards the above points and related legislation.

8.5 Employment agencies must only supply workers registered with them.

8.6 Workers pay no recruitment fee at any stage of the recruitment process.

8.7 Worker contracts accurately reflect the agreed payment and terms in the recruitment process and are understood and signed by workers.

Current Systems and Evidence Examined

To complete 'current systems' Auditors examine policies and written procedures in conjunction with relevant managers, to understand, and record what controls and processes are currently in place e.g. record what policies are in place, what relevant procedures are carried out, who is/are responsible for the management of this item of the code. Evidence checked should detail any documentary or verbal evidence shown to support the systems.

Current systems:

The whole work force is hired on the base of the CCNL (National Collective Labour Contract). All labour contracts and employees' files were provided for review. All contracts are well maintained and signed by both parties. There is no evidence of particular arrangements used to avoid regular employment.

The facility may use temporary workers if when necessary (occasional and none on the day of the audit). Temporary work agency is required to be compliant with applicable labour regulation and to demonstrate it providing the DURC (Unique Document of Regular Contribution) by relevant labour authority-

No recruitment fee for workers.

[\(Click here to return to summary of findings\)](#)

To be completed for a 4–Pillar SMETA Audit and remove the previous page which is 10B2 environment 2 pillar

B.4. Compliance Requirements

10B4.1 Businesses as a minimum must meet the requirements of local and national laws related to environmental standards.

10B4.2 Where it is a legal requirement, businesses must be able to demonstrate that they have the relevant valid permits including for use and disposal of resources e.g. water, waste etc.

10B4.3 Businesses shall be aware of their end client’s environmental standards/code requirements

10B4.4 Suppliers should have an environmental policy, covering their environmental impact, which is communicated to all appropriate parties, including its own suppliers.

10B4.5 Suppliers shall be aware of the significant environmental impact of their site and its processes.

10B4.6 The site should measure its impacts, including continuous recording and regular reviews of use and discharge of natural resources e.g. energy use, water use (see 4–pillar audit report and audit checks for details).

10B4.7 Businesses shall make continuous improvements in their environmental performance.

10B4.8 Businesses shall have available for review any environmental certifications or any environmental management systems documentation

10B4.9 Businesses should have a nominated individual responsible for co–ordinating the site's efforts to improve environmental performance.

B4. Guidance for Observations

10B4.10 Suppliers should have completed the appropriate section of the SAQ and made it available to the auditor.

10B4.11 Has the site recently been subject to (or pending) any fines/prosecutions for noncompliance to environmental regulations.

Note for auditors and readers. This environment section is intended to take not more than 0.25 auditor days. It is an assessment only and the main requirement is to establish whether a site is meeting applicable environmental laws and/or has any certifications or environmental management systems in place. Following this assessment, the client/supplier may decide a full environmental audit is required (see also best practice guidance/environment and guidance for auditor)

Current Systems and Evidence Examined

To complete 'current systems' Auditors examine policies and written procedures in conjunction with relevant managers, to understand, and record what controls and processes are currently in place e.g. record what policies are in place, what relevant procedures are carried out, who is/are responsible for the management of this item of the code. Evidence checked should detail any documentary or verbal evidence shown to support the systems.

Current systems:

The facility appeared compliant with applicable regulation; the required authorizations are in place and up to date, they have for the wastewater and the air emission specific authorization in place called AUA (Unique Environmental Authorization) released the AUA 09/10/2022. Air emissions are yearly. Specialized and authorized companies, performing waste collection, have a contract in place with the facility. No evidence of fines/persecutions was noted during this audit.

Evidence examined – to support system description (Documents examined & relevant comments. Include renewal/expiry date where appropriate):

10C: Business Ethics – 4-Pillar Audit

[\(Click here to return to summary of findings\)](#)

To be completed for a 4-Pillar SMETA Audit

10C. Compliance Requirements

10C.1 Businesses shall conduct their business ethically without bribery, corruption, or any type of fraudulent Business Practice.

10C.2 Businesses as a minimum must meet the requirements of local and national laws related to bribery, corruption, or any type of fraudulent Business Practices.

10C.3 Where it is a legal requirement, businesses must be able to demonstrate that they comply with all fiscal legislative requirements.

10C.4 Businesses shall have access to a transparent system in place for confidentially reporting, and dealing with unethical Business Ethics without fear of reprisals towards the reporter.

10C.5 Businesses should have a Business Ethics policy, covering bribery, corruption, or any type of fraudulent Business Practice,

10C.6 Businesses should have a designated person responsible for implementing standards concerning Business Ethics

10C.7 Suppliers should ensure that the staff whose job roles carry a higher level of risk in the area of ethical Business Practice e.g. sales, purchasing, logistics are trained on what action to take in the event of an issue arising in their area.

10C. Guidance for Observations

10C.8 Businesses should communicate their Business Ethics policy, covering bribery, corruption, or any type of fraudulent Business Practice to all appropriate parties, including its own suppliers.

10C.9 Has the site recently been subject to (or pending) any fines/prosecutions for non-compliance to Business Ethics regulations. If so is there evidence that sustainable corrective actions have been implemented

Note for auditors and readers. This Business Ethics section is intended to take not more than 0.25 auditor days. It is an assessment not an audit.

Current Systems and Evidence Examined

To complete 'current systems' Auditors examine policies and written procedures in conjunction with relevant managers, to understand, and record what controls and processes are currently in place e.g. record what policies are in place, what relevant procedures are carried out, who is /are responsible for the management of this item of the code. Evidence checked should detail any documentary or verbal evidence shown to support the systems.

Current systems:

The internal Code of Conduct clearly disclosed different declaration on businesses practices. The company appeared to have fully meaning on Business ethics policy. The board member are responsible for any implementation and action for Business Practice Integrity.
